

Environmental Policy

Policy Statement

UK Plumbing Supplies seeks to minimise the environmental impact of our operational activities. To reduce our impact on the environment our objectives are:

- Preventing pollution through waste management strategies that promote waste minimisation, re-use, recovery and recycling as appropriate
- Conforming with our compliance obligations
- Operating to environmental standard ISO 14001:2015
- Making our energy consumption and emissions metrics publicly available
- Completing internal audits at regular intervals which will continuously improve our Environmental Management System by identifying any corrective and preventive action required
- Promoting efficient energy use in our business activity
- Reviewing procurement processes to ensure our suppliers are minimising product impacts on the environment
- Engaging staff at all levels so that they are aware of the environmental impacts of their daily activities

Directors and employees will meet our objectives by:

- Constantly reviewing and improving what we do
- Meeting our legal, ethical and compliance obligations to our customers, and ISO 14001 standard.

Copies of our environmental policy are made available to all our customers and employees.

Signed

Angus Falconer
Managing Director
